

## C. I. A. - THE INVISIBLE GOVERNMENT

The C.I.A. has a past record of dishonest meddling in student organizations. It has engineered the overthrow of governments considered hostile to the United States. Foreign governments are considered to be hostile for various reasons such as wanting to nationalize industries. Usually these governments are labeled "Communist" to hide the real reasons for their overthrow. Examples of this are Dominican Republic, various activities in Bolivia, Brazil.....

Because we feel dishonesty, secrecy, and totalitarian tactics have nothing to contribute to the educational enterprise, and because we are opposed to the way this arm of the government is used, we protest their use of our campus facilities to recruit students who will be trained to participate in their programs, plots, and schemes.

GET THEM OFF  
OUR CAMPUS!
